You recently participated in an in-home interview for the National Social Life, Health and Aging Project (NSHAP). During the interview, you agreed to wear and return a small wristwatch that will collect information about your activity and sleep over a 3-day period. The watch measures whether you are moving or not. We will not be able to tell from the information what you are doing, only whether you are asleep, awake or actively moving.

We are also asking you to record the times that you woke up, napped, and went to bed in this booklet. The data you provide will permit us to explore how sleep and activity affect our physical and mental health as we get older.

If you have any questions, please contact NSHAP toll-free at 1-877-394-1975. Thank you for participating in NSHAP.

Please note that it is very important that you put the watch on the same day you receive this package.
INSTRUCTIONS

This booklet will take you through how to use the watch, from the day you receive the watch (page 4) to returning the watch and booklet using the pre-paid mailing box (back page). Make sure to place this booklet either by your bed, on the fridge or somewhere you will be able to remember to record your sleep activity each day. This information is essential for understanding your sleep patterns. Before proceeding to this, we would like you to answer each of the questions on page 3.

In answering the questions in the booklet, please be as honest and accurate as possible. Some questions will ask you to choose from a list of options. Choose the response that most closely matches your answer, and put a check mark ✓ or x in the box provided on the left. Other questions will not include a list of choices and you should enter your response in the space provided.

Materials in this package:

1) Activity and Sleep Booklet
2) Watch
3) Priority Mail cardboard box
4) Plastic bubble bag
5) Activity and Sleep FAQ

If you have any questions or are missing any materials, please contact NSHAP toll-free at 1-877-394-1975.
