Re-Introduction of the NORC Team

A NORC at the University of Chicago

NORC at the University of Chicago is an objective, nonpartisan, research organization that delivers insights and analysis decision-makers trust.

NORC was contracted by HRSA to conduct an evaluation of their resiliency programs.

- Multi-methods evaluation of the Health and Public Safety Workforce Resiliency Training Program (U3N), the Promoting Resilience and Mental Health among Health Professional Workforce (U3M) program, and the Health and Public Safety Workforce Resiliency Technical Assistance Center.
 - Survey of program participants with comparison group
 - Cost and benefit analysis
 - Qualitative interviews with grantee leadership and staff
- NORC's contract period runs from September 2022 through September 2026.

+NORC

Alana Knudson, PhD Principal Investigator

Craig Holden, PhD, MPH, MBA Cost Benefit Analysis Lead

Britta Anderson, PhD Project Director

Julie Gasparac, MPH Help Desk Lead and Survey Lead

Clare Davidson, MSW Project Manager

Megan Coffman, PhD Interview Lead б

Rachele C. Espiritu, PhD Founding Partner

Sandra Silva, PhD Change Consultant

Christina Davids, MPA Change Consultant

Evaluation Progress and Goal

NORC and HRSA designed an evaluation to capture data on key outcomes across diverse programs and received OMB approval 1/4/24.

- Awarded contract September 2022
- **Developed evaluation questions** Fall 2022
- **Designed evaluation** Winter 2022/2023
- Pilot tested data collection instruments and gathered feedback March 2023
 - Collaboration with the TAC
 - Focus group of awardees
 - Consultation with subject matter experts
 - Cognitive testing with healthcare professionals
- Submitted OMB package May 2023
- OMB approval January 2024
- Data Collection Now!

 \pm NORC

HRSA's goals for this evaluation are to better understand the impact and implementation across these three programs.

- Assess programs' efforts to promote resiliency and mental health in the health workforce beyond what is captured in annual performance reporting.
- Measure program outcomes across grantees and grant programs.
- Align data collection efforts with parallel efforts across HRSA.
- Develop recommendations and provide actionable strategies/methodologies programs can use to inform future programming and investment strategies.

 $\pm NORC$

The evaluation may have benefits for you and others regarding new funding opportunities and reduced reporting burden.

- Provides policymakers with data on the program's effectiveness.
 - Showing the impact of these programs to support continue funding of resiliency programs.
 - Additional funding for resiliency programs ideally translates into better outcomes for providers, patients, and communities.
- Adds program-wide context to organization-level evaluations you may be conducting
- Enables BHW to not collect individual-level data from you, which reduces the typical reporting burden of the annual performance reports.

 \pm NORC

HORC

High-Level Provider Resiliency Evaluation Questions

Both Resiliency Programs

- What are the perceived changes in outcomes before and after activities, trainings, and/or services? Key outcomes include burnout, resiliency, work environment, support needs, mental health.
- 2. What are the best practices, innovations, challenges, and lessons learned in implementing the program?
- 3. What are the overall costs and benefits of the program?

This Resiliency Program

 How did awardees make progress toward organizational change?

Technical Assistance Program

- How effective was the Technical Assistance Center (Workplace Change Collaborative – WCC) with providing support?
- 2. What are the best practices, innovations, challenges, and lessons learned in implementing technical assistance to the programs?

Data Collection Activities

The evaluation benefits from data across a range of individuals.

1. Healthcare Workforce Survey

- Awardee Training and Services Report
- Fielding Tracker
- 2. Awardee Interviews
- 3. Cost Workbook
- 4. Awardee Survey about the Technical Assistance Center

The <u>Healthcare Workforce Survey</u> will collect data on the programs' impact and implementation.

- 15-minute web-based survey for all individuals targeted by your HRSA-funded program.
- NORC will field a subset of questions to a comparison group of healthcare workers.

The survey will assess:

- Participant experiences
- Perceived changes in key outcomes (burnout, resiliency, work environment, support needs, mental health)
- Perception of organizational support
- Reasons for burnout
- Intent to leave
- Absenteeism
- Perception of physical and mental health
- Impact of COVID-19

16

The <u>Healthcare Workforce Survey</u> (continued)

What is your role?

- Complete supporting forms that NORC will use to tailor the survey and assess differences between survey responders and non-responders.
- Send email invitations and reminders to your programs' target population.

In response to your concerns regarding sharing participant contact information, we are asking you to send the survey link directly to your programs' target populations.

We will partner with you to ensure the accuracy of the Healthcare Workforce Survey. NORC will provide detailed instructions and is available to assist you in these related survey activities:

- Awardee Training and Services Report
- Defining 'Who to Invite' to complete the survey
- Email survey invitation and reminders
- Complete related Fielding Tracker

The <u>Awardee Training and Services Report</u> confirms and collects the names of your program activities to be used on the Healthcare Workforce Survey.

- This form confirms the program activity name and key information for each grantee program/activity.
- The Healthcare Workforce survey will then reference these program names to ensure survey respondents recognize the activities.

What is your role?

- You will receive a pre-populated form with activities listed from your grant application, progress reports, and annual reports.
- The Awardee Training and Services Report will ask you to confirm, revise, or add details as needed for your program activities.

The <u>Fielding Tracker</u> will capture Healthcare Workforce Survey outreach information.

- Capture basic information about the emails that you will send for the Healthcare Workforce Survey.
- Help NORC assess whether there are differences between survey responders and non-responders. This analysis will be crucial for planning future programs to help healthcare professionals.

What is your role?

- On the form provide survey fielding information:
 - Number of emails and date sent
 - Number of undeliverable emails
 - Capture demographic information on target population
 - Age, race, etc.

The <u>Awardee Survey about the Technical Assistance Center</u> will assess your experiences with and perceptions of the impact of the WCC's technical assistance.

• Asks about program implementation, barriers/challenges, lessons learned, program promotion, sustainability, program impact, and COVID-19 factors.

What is your role?

• Please complete the survey, which will take about 15 minutes (depending on whether you want to consult with colleagues to answer questions).

 $\pm NORC$

The <u>Cost Workbook</u> will assess the costs and potential benefits of these programs.

- Capture costs (e.g., personnel; contracted services; facilities; supplies and materials; overhead and administration; etc.) as well as attrition and turnover.
- NORC will pre-populate the workbook with abstracted cost, staffing, and performance data from awardee applications, budget materials, and progress and performance reports.

What is your role?

• Review, verify, and update all information as needed.

The <u>Qualitative Interviews</u> will gather key data from your perspectives regarding challenges, lessons learned, and organizational change.

- Ask about program and implementation, barriers/challenges, lessons learned, program promotion, sustainability, program impact, and COVID-19 factors.
- Your interviews will also ask about organization change and will include our partner, Change Matrix.
 - Interviews with project leadership, partners, and the healthcare workforce

What is your role?

- Please take part in these 90-minute Zoom interviews.
- NORC and Change Matrix will reach out to you about scheduling and identifying participants.

Next Steps

The evaluation includes two rounds of data collection: (1) 2024; (2) Early 2025. A high-level overview of the timing for the first round is:

begin interviews.3. Determine who to invite to the survey.

NORC knows you are busy. We are eager to provide support.

Our evaluation team will be available in multiple ways...

- *Email Communications:* Please keep an eye out for emails from *NORCEval@norc.org* for further communications.
- **Evaluation Support Website:** A website with additional detail and helpful videos detailing evaluation activities. NORC will share the website address via email shortly.

 \pm NORC

NORC knows you are busy. We are eager to provide support.

Our evaluation team will be available in multiple ways (continued)...

- **Office Hours:** NORC will host optional weekly office hours for you or your team to attend at your discretion and have any questions answered.
 - Beginning January 17th.
 - 1st & 3rd Wednesdays (2-3 pm ET): <u>https://norc.zoom.us/j/87540707355</u>
 - 2nd & 4th Fridays (12-1 pm ET): <u>https://norc.zoom.us/j/82069116119</u>
- Help Desk: Contact NORC at NORCEval@norc.org or leave a message at 888-201-3291 with any questions about the evaluation and we will be happy to assist.

 $\pm NORC$

Below are the Immediate Next Steps for the Evaluation.

Within the next week or so, keep an eye out for emails from <u>NORCEval@norc.org</u>:

- Awardee Training and Services Report: Review and revise the pre-populated form.
- Interview Scheduling: Begin scheduling the 90-minute interviews.
- Who to Invite: Work with NORC to pinpoint who should receive the Healthcare Workforce Survey emails.

Questions?

We look forward to working with you.
